

HELI

Reliable special meter display the whole truck's working condition, fuel-level and other important information completely which make the operator master the whole truck condition directly and conveniently.

Standard configuration	Optional	Optional
Hour meter	Overhead guard	Driver's cab
Horn	Standard fork	Warning light
Oil pressure alarm	Neutral gear switch	High air releasing device
Control valve	Hydraulic circuit of filter	Double air cleaner
Wholly hydraulic-powered steering	Electro hydraulic charging-over	Suspension seat
Rubber pad	Intelligent shift	Fork extension
Backhoe	Speed limiting valve	Hydro
Rear view mirror	Oil level gauge	Solid tyre
Front combined lamp (LED light)	Charging indicator	Wider fork carriage
Transmission of filter	Wide view mast	Wind shield
Engine flame-out device	Air mixing device	Purifying-muffler
Ratchet-type parking brake	Disable tire with decorative pattern	Fire extinguisher/muffler
Water temperature meter	Lifting and tilting operating handles	Fire extinguisher
Driver's tools	Traction pin	Rear working light
Rear combined lamp(LED)	Semi-suspension seat	Air conditioner (certain type)
Reversing buzzer	Hydraulic oil dipstick	OPS(traveling function)
Tilt lock valve	Overhead guard rain cover	Temper. converter of temperature meter
Tilt adjustable steering column	Temper. converter of oil dipstick	Tilting cylinder sleeve
Back view mirror	Combined instrument	Steering cylinder sleeve

## 5-10 t G series Internal Combustion Counterbalanced Forklift Truck

www.heliforklift.net

G SERIES 5-10 t

### Technical features remarkably improved

- Damping**
  - With suspension damping structure on overhead guard(cab) and optimized design for the transmission, the whole truck's vibration reduced a lot and relieve driver's fatigue greatly.
- Noise reduction**
  - Equipped with fully sealed cab and optimize designed parts around the engine, noise nearby ear and the truck sound level are reduced greatly.
- Heat dissipation**
  - With the optimized cooling system and great cooling performance, highly improved the reliability and durability of the transmission and engine, etc. many key parts.
- Energy efficiency**
  - With optimized hydraulic system, the truck is more energy-efficient and lower fuel consumption.

- Comfort**
  - Man-machine engineering design improves operation comfort; wide view lifting system improves vision.
- Intelligent gear shifting**
  - With electronic-hydraulic reversing system as standard configuration, make operation more light and easy. The updated new intelligent gear shifting system could avoid starting with second gear, improves the transmission box's reliability.
- Maintainability**
  - Wider internal space, more reasonable parts layout and 80°hood opening angle make maintenance easy.
- Reliability**
  - Key parts like frame and mast apply CAE top-down design to improve their strength and make the truck tough.
